How to Figure Package Rates

Includes: Accommodations, Reef Trip and Air Fills

Packages consist of 3 different combinations:

3 Night Package Includes: 3 nights lodging 3 trips - weights & air	5 Night Package Includes: 5 nights lodging 4 trips - weights & air	7 Night Package Includes: 7 nights lodging 6 trips - weights & air
--	--	--

You may **add these combinations** together to get any multiple you want

You figure your cost per person according to the number of people per room.

In addition, we have already figured out for you, **Special Package Rates for EQUIPMENT RENTAL & LESSONS**. You will find these rates on each package page (see *fig. 2 and the Package Example, below*). If you wish us to supply rental equipment or lessons, you simply **add** the amount shown, to the package price per person. This becomes your cost per person *rental or lessons included*.

Package Example: (see *fig. 1 and 2, below*)

- 1) Your party is staying at the **EFFICENCY CONDO SUITE**
- 2) With **TWO** people per room, for a **3 Night Package**.
- 3) During the **Christmas Holiday Winter**
- 4) Your rate is **\$330** per person.
- 5) If you want us to **provide the tank rental**, your rate would be: **\$330** per person for the package, **plus (+)** **\$22** package tank price (see *fig. 2, below*), for **\$352 per person package - tanks included**.

Store and Trip Policy

Certifications required on all scuba diving sales and services. Non-certified divers must be accompanied by an instructor in order to scuba dive on reef trips.

Scuba Divers diving over their experience level, such as deep dives, must be escorted by an instructor. Scuba Divers who have *not* been diving in over a year must have a refresher dive before participating in reef trips. An instructor can do this for a diver on a reef trip or a diver can do a shore dive and refresh themselves.

Scuba divers are to have large Buoyancy Compensators with at least 25 lbs. lift, submersible pressure gauges, snorkels and maintain log books. On night dives, scuba divers are to have their own individual light and a cyalume light stick besides their normal equipment. All reef trip scuba divers are to sign, in agreement, a statement of understanding regarding their diving ability and responsibilities toward other divers. A liability release is also required to be agreed to and signed before participating in reef trips. Scuba divers wishing to have their tanks filled are to have or purchase and pass a current tank exterior and interior inspection.

Professional organized groups (10 or more paying passengers) must rent our tanks in order to participate in group rates. Group rates are not always available during holiday or rush periods. Groups must be organized by a group leader who is willing to be responsible for the activities, rental organization and reservations of the group.

Snorkelers are to wear a CO₂ inflatable safety vest. They are also to agree to a liability release and a statement of understanding before participation in any reef trips.

Merchandise returned is subject to inspection and approval for exchange or return to the manufacturer for warranty. No refunds are given for returned items, unused packages or cancellations for any reason. Packages cancelled will be issued a *raincheck* for diving services *only*.

All offers made by Hall's Diving Center and Career Institute are subject to change, cancellation or lack of availability without notice.

We look forward to your visit. If we can help you plan your diving, just give us a call.
